Unlocking Stourport's Past is a local history project funded by The Heritage Lottery Fund under its Local Heritage Initiative. In partnership with Worcestershire Historic Environment and Archaeology Service, Stourport Civic Society has been awarded £25,000 for a two-and-a-half year project.

The main aim of the Project is to increase public awareness of Stourport's built environment by: enhancing the records already held by the Archaeology Service; creating an online map showing significant buildings in the town; providing guided town walks; publishing a series of information leaflets about Stourport Pubs, Shops and Walls.

We hope this Project will bring a wider awareness of Stourport's heritage at a time of great change in the town.
